This is a decision on the "Renewed Petition For Revival Under 37 CFR 1.137(b)" filed July 10, 2006.

The renewed petition is **GRANTED**.

In a decision mailed herein on May 22, 2006, applicants' original petition for revival under 37 CFR 1.137(b) was dismissed without prejudice for failure to satisfy all the requirements of a grantable petition. Specifically, applicants had failed to properly sign the petition and the required statement that the "entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to this paragraph was unintentional."

The renewed petition filed July 10, 2006 is properly executed by both applicants and includes the required statement of unintentional delay (also executed by both applicants). Applicants have therefore now satisfied the remaining requirement for a grantable petition for revival under 37 CFR 1.137(b). Accordingly, the reply to the Office action mailed June 10, 2004 (filed by applicants on January 23, 2006 as part of the original petition for revival) is accepted as having been unintentionally delayed.

The application file is being referred to Technology Center AU 2113.
